With **KIT-PRO**
you can control the cleanliness of
your facilities and the health of your environment

Colorimetric test for organic hygiene control:

- ➔ All in an only reactive
- ➔ IMMEDIATE results
- ➔ Easy to read by simple colour change
- ➔ Maximum sensitivity ($3\mu\text{g AA}$)
- ➔ No instruments required

LIMPIO SUCIO MUY SUCIO

KIT-PRO does not detect dust, that's what your eyes see. It detects invisible dirt, the organic matter. This is the most dangerous dirt, as bacteria and fungi multiply on surfaces.

KIT-PRO also indirectly detects total allergens.

- ☀ Make an easy and rapid surface hygiene self-control in factories, restaurants, hotels, schools, hospitals, offices, supermarkets ...
- ☀ Also designed for hygiene control of your home, kitchen, telephone, tables, utensils, tools, showers, bathrooms, toilets, trash ... comfortable in a suitcase format allows you to take on the road and control wherever you are.
